

Sandford Heights

Nursery and Tea Garden

Located on the R71 between Haenertsburg and Tzaneen, 800m past the Magoebaskloof Hotel, our nursery has a wide selection of organically grown perennial plants suitable for the colder garden. Exotic specialities include azaleas (evergreen and deciduous), camellias and grafted japanese maples. Our indigenous section has a range of agapanthus, arums, dieramas, kniphofias, watsonias and many other interesting and unusual plants. As we grow our own stock, you will find our prices extremely reasonable, and if you are used to Gauteng prices, you will be sorry if you don't bring a trailer along to make your trip worthwhile! The nursery display area is surrounded by gardens where you can see mature specimens of our plants and trees.

Our tea garden offers sumptuous home-style breakfasts, snacks and lunches throughout the day. Specialities include waffles, muffins, and pecan pie. Eating healthy, delicious food in serene and scenic surroundings is what keeps many of our customers returning for more.

On offer in our shop are a wide range of home-made preserves, including blueberry and kiwi jam. We also have a variety of gift articles including hand-embroidered bags and cushion covers from Sewaji Craft, soaps and lotions from Hazel Roskelley, Rem.E cream from Goobie Marne and Modjadji's Ionic Silver products from Penny Kuisis.

The Lesodi (Forest) Trail starts on our doorstep and you can park your vehicle in safety on our premises while you walk the trail.

We are open 7 days a week from 9 a.m. To 5 p.m.
